DETAILED ACTION

This office action is in response to applicant's request for continued examination filed October 12, 2006.

Allowable Subject Matter

Claims 55 and 70-74 are allowed.

The following is an examiner's statement of reasons for allowance: while the prior art as evidenced by newly discovered Gandikota et al. (U.S. 2006/0128150) disclose the claimed process of forming a metal on a conductive material like TaN using ammonia as its reducing agent without an insulative composition between, the prior art fails to disclose or make obvious etching the metal into a rectangular block with its sides vertical with sidewalls defining an opening in an insulation layer including all the limitations of the independent claim.

In contrast, although the released layer is subsequently planarized/ and or etched with a top portion of an insulation layer, its sides are subsequently horizontal to the surface surrounding the opening instead of vertical with the sidewalls of the insulation forming the opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 09/932,236

Art Unit: 2813

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Likewise, the prior art in Taguwa (U.S. 2002/0043722) and Derraa (U.S 2003/0025206) shows a similar process as claimed, but with ammonia acting as a releasing agent for a metal and chloride, instead of carbon.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Mitchell whose telephone number is (571) 272-1931. The examiner can normally be reached on M-F 8:00-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Whitehead Jr. can be reached on (571) 272-1702. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
